

TREAT HEAT STRESS FROM THE INSIDE

Let BOVINE ACCELLYTE II reduce stress for both you and your herd this summer!

With summer heat approaching, maintaining health and production is vital to being profitable. BOVINE ACCELLYTE II is a specialized electrolyte for periods of stress, rehydration and pre-hydration during events such as:

- Heat stress
- Calving
- Illness
- Feed changes
- Shipping/receiving

BOVINE ACCELLYTE II helps to promote feed and water intake, and therefore, restores electrolyte functions and water retention to prevent losses due to dehydration.

PLAN AHEAD AND SAVE!

BENEFITS OF BOVINE ACCELLYTE II

- Provides sodium, chloride and potassium to replace these key electrolytes that are lost from higher respiration and sweating
- Contains dextrose for extra energy
- Provides betaine, an essential osmolyte that helps individual cells retain hydration during heat stress
- Can be fed continuously or targeted specifically to periods of high temperatures and humidity (1-2 day lead time necessary)
